This open world is filled with trends towards mobile learning. The Erasmus+ VET Sector project Digi-VET addresses this and discusses ways of learning and teaching in the age of digitisation and Industry 4.0. The overarching aim is to make awareness of the needs for digitalisation and Industry 4.0 in Vocational Education and Training (VET). This will enable VET trainers to better equip the students with targeted skills to enter the labor market.</p> <p>AIMS Digi-VET addresses the challenges of the rapidly changing environment in the economy that impacts the into pedagogical settings. VET schools have a need for information in different vocational fields. The business administration, production, marketing, as well as in IT. The teachers have to face the new situation and have to provide the students with new learning materials which will be created. Therefore Digi-VET has a strong focus on creating materials to provide a first step towards new approaches in Vocational Education and Training (VET) by creating awareness of the change in the global market.</p> <p>The aim of the Digi-VET project was to do qualitative and quantitative research in the partner countries to provide an overview picture for VET teachers, VET trainers, VET students and VET employers to learn how current trends in global markets in an attempt to promote vocational learning. The results will include:</p> <ol style="list-style-type: none"> 1. The Commission based on the findings of the research; 2. The development of a book which will include background information and detailed facts; 3. The creation of an online observation with best practices for each partner country; 4. The preparation of the teaching and learning material and resources; 5. The development of the national MOOC for professional development of teachers; 6. The creation of various videos that will provide an overview for teachers and learners, which will be incorporated in the website and the online observation. <p>TARGET GROUPS - VET trainers/teachers</p> <p>EXPECTED RESULTS Digi-VET addresses the challenges of the rapidly changing environment in the economy and towards the into pedagogical settings. VET schools have a need for information in different vocational fields, such as business administration, production, marketing, as well as in IT. Teachers and trainers need to make use of the current changes, in order to equip young people to enter the labor market and prosper. Therefore Digi-VET has a strong focus on creating materials to provide a first step towards new approaches in Vocational Education.</p>	<p>DIGI-VET Fostering Digitisation and Industry 4.0 in vocational education and training</p> <p>COOPERATOR Genious Knowledge</p> <p>PARTNERS WPK ABERBORN AOA AACHEN ARVET LIMITED Emohasy</p> <p>Erasmus Centre Contact Details: www.digivet.eu info@digivet.eu +357 20060210</p> <p>This project has been funded with support from the European Commission.
