

Emphasys

CENTRE

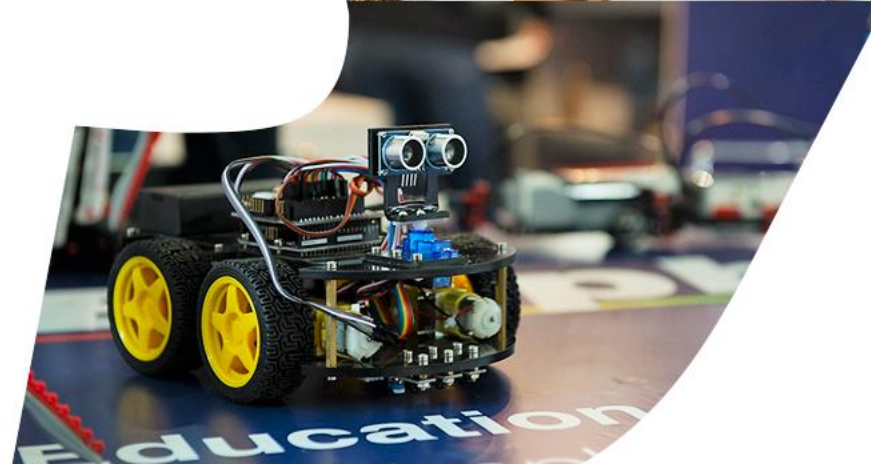

Centre for Education, ICT Training and Research

Private Organisation - Educational Centre
Accredited by the Cyprus Ministry of
Education and Culture

Education is the most powerful weapon which you can use to change the world” (Nelson Mandela)

Our aim will always be, to offer quality education to all, regardless of time and effort. It is our belief that each student has the potential and ability to succeed in his/her school career and should be motivated to do so when given the opportunity to be actively involved in a learning process.

Brief History

1998

Emphasys Computer Training Centre

Providing training courses in the field of ICT to professionals, adults and young learners.

2007

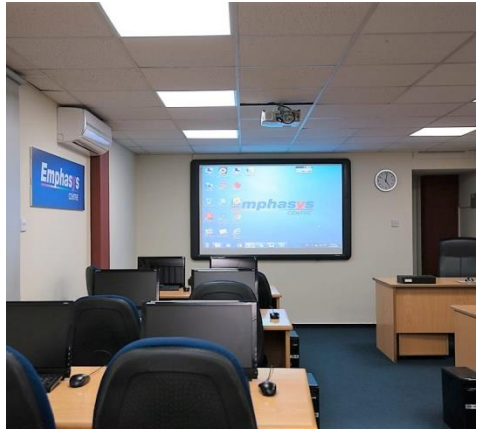

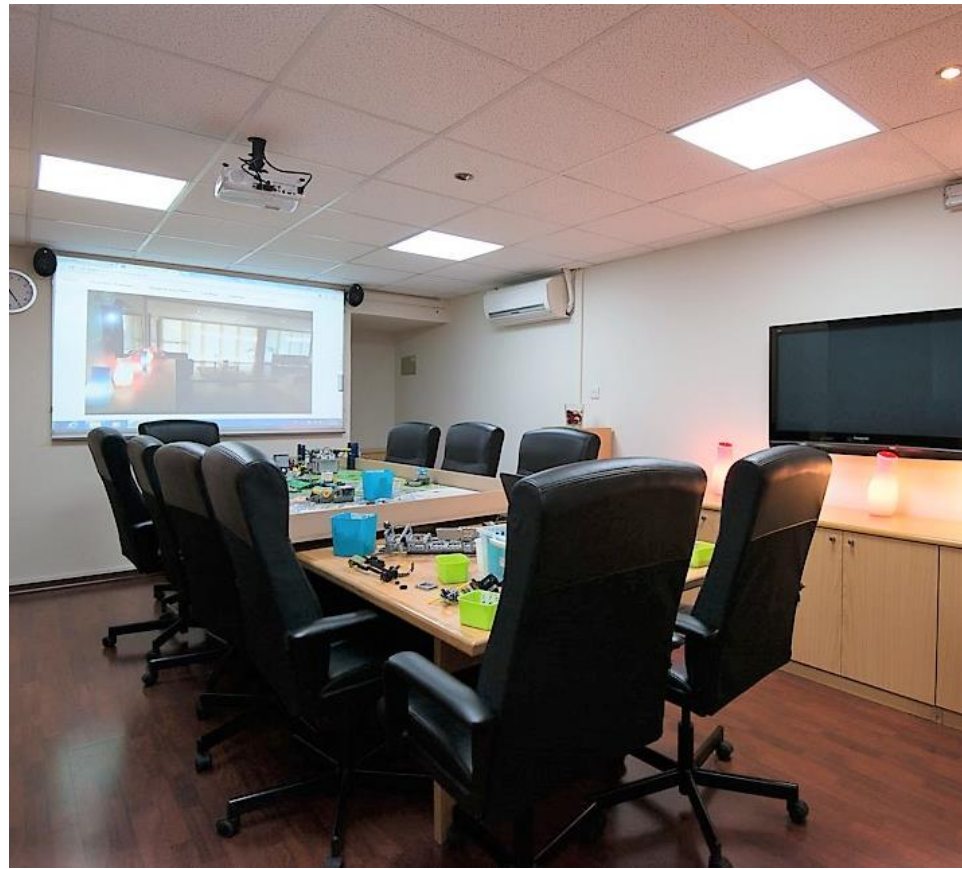

Emphasys Centre: Education and ICT training

Accredited by the Cyprus Ministry of Education and Culture as a Private Educational Centre specializing in the ICT field.

2011

Emphasys Centre: Education, ICT Training & Research

Implementation, management and coordination of European and National Projects: European Social Funds, Lifelong Learning, Erasmus+ etc.

EDUCATION

Main target group: Young Learners

- Primary School Pupils
- Secondary School Students
- VET students - apprentices
- Young people

Each course is designed based on the current trends of the area under investigation and is adopted according to the needs, interests and background knowledge of each group of learners.

GCE - A' Level Computer Science

A Cambridge International A' Level is recognised around the world by schools, universities and employers.

- The qualifications are accepted as proof of academic ability for entry to universities worldwide.
- University course credit and advanced standing is often available for Cambridge International A/AS Levels in countries such as the USA and Canada.

Award-Winning Education Centre

8 Student Awards since 2008

For achieving the 'Highest Mark' in
Cyprus [A' Level Computer Science]

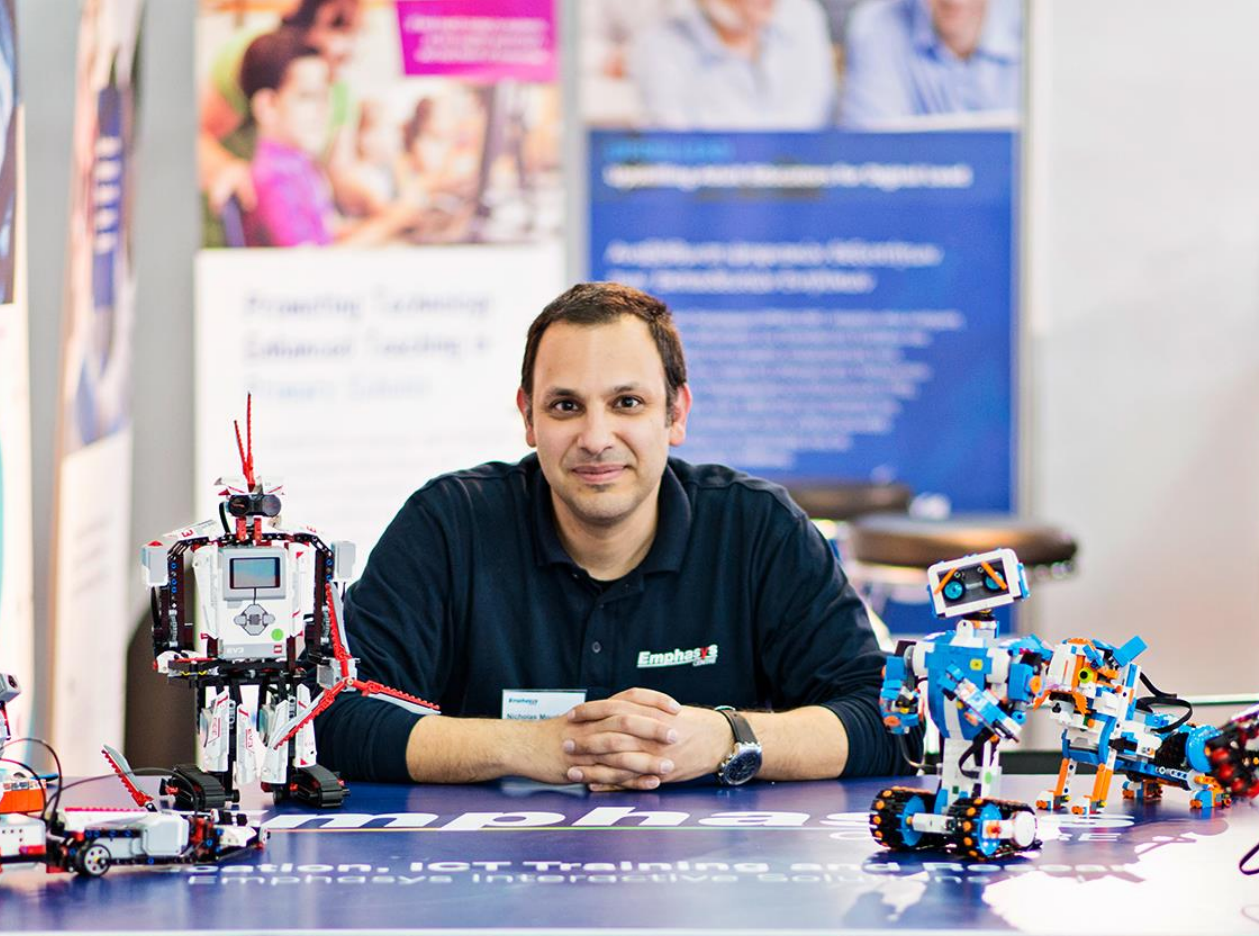

Coding + Robotics

Robotics for all

Robotics is the mother of all subjects. It integrates Mechanical, Electrical, Electronics, Control Engineering, Computer Science, Technology, Maths and Science. Robotics integrates all STEM fields in a way no other subject can cover.

RoboKids RoboCode RoboExpert

ECDL - European Computer Driving Licence

ECDL Options (3)

- Presentation
- Using Databases
- Web Editing
- Image Editing
- Project Planning
- IT Security
- Online Collaboration
- 2D CAD
- Health Information System Usage

99% Success Rate

Pancyprian Exams

This course focuses on the learning of structured programming and also prepares the student for the entrance examinations for the public universities in Cyprus and Greece.

It introduces the student to the logic of solving problems using structured programming, and algorithms along with flowcharts, which help the student to acquire the specific skills required in programming.

Our students have achieved high results in the examination earning them a position in the most demanding courses in public Universities.

Learners don't remember what you try to teach them. They remember what you are.

- Jim Henson

Educational Services & Counseling

Career Guidance to Students

All guidance and advice provided aim to help students to design a career path that is best suited to their interests, abilities and personality.

Counseling Services

We respect each learner and aim to provide an adequate learning environment to meet his/her educational needs. Our associates (speech therapists, psychologists, special needs etc.) offer their expert advice.
